

INTRIGUE

INTRODUCTION:

How complex can the mind think? How complicated a machine can you design? How innovative can it be? Many a time those which are perceived by our brains are too difficult to produce in the physical world. But then, there came CAD.

The designs that once took years is now a few hours away because of CAD. Its importance in designing and engineering is beyond words. Do you have what it takes to create some very complicated designs?

EVENT FORMAT:

ROUND-1:

In this round participants have to go through a written test consisting of fill in the blank questions (related to AUTOCAD).

ROUND-2:

Participants who are selected in round 1 will be given a design Prototype on the spot and you have to design it using the AUTOCAD SOFTWARE.

RULES AND REGULATIONS:

- ▲☐ Each team consists of only one person
- ▲☐ Computers with AutoCAD software will be provided (but in limited).
- ▲☐ In case of any discrepancy, decision made by the judge is final.
- ▲☐ Every person should carry their college id card.
- ▲☐ Question paper format will be released at the time of Wissensaire.

IIT Bhubaneswar

The Annual Techno Management Fest

WISSENAIRE

3rd - 5th February 2017

JUDGING CRITERIA:

- ▲□ Participants will be judged based on the following criteria.
- ▲□ Participants who will cross qualifying marks in the written test will be Selected for Round 2.
- ▲□ In Round 2 the participant who completes the prototype given to them Perfectly without any error in minimum time is declared as the winner.
