

IIT Bhubaneswar

The Annual Techno Management Fest

WISSENAIRE

## CAD-ED

### INTRODUCTION:

How complex can the mind think? How complicated a machine can you design? How innovative can it be? Many a time those which are perceived by our brains are too difficult to produce in the physical world. But then, there came CAD.

CAD carved the sophisticated designing models into simpler ones. Its importance in designing and engineering is beyond words. It's a great opportunity to boost your designing techniques .

### EVENT FORMAT:

**ROUND-1:** In this round participants have to go through a written test consisting of fill in the blank questions (related to AUTOCAD).

**ROUND-2:** Participants who are selected in round 1 will be given a design prototype on the spot and you have to design it using the AUTOCAD software.

### RULES AND REGULATIONS:

- Each team consists of only one person
- Computers with AUTOCAD software will be provided (but in limited).
- In case of any discrepancy, decision made by the judge is final.
- Every person should carry their college id card.
- Question paper format will be released at the time of Wissenaire.

**WISSENAIRE**

**JUDGING CRITERIA:**

- Participants will be judged based on the following criteria:
- Participants who will cross qualifying marks in the written test will be selected for round 2
- In round 2 the participant who completes the prototype given to them
- Perfectly without any error in minimum time is declared as the winner
